

MATH6669 Semester 1, 2024
Tutor Application

Dear Course Coordinator Lundmark-Aitcheson,

This semester, I would like to apply to not be a tutor for MATH6669. Here are my qualifications for the non-tutor role:

- I have over 21 years of experience of not being a MATH6669 tutor.
- I have a conflict of interest, being a close personal friend of the previous course coordinator.
- I do not know what MATH6669 is even about.
- I pronounce \LaTeX as “la tech”.
- I am currently a student in this course.
- I am known to grade capriciously, and with premeditated malice.

I'm looking forward to hearing back about the outcome of this application.

With respect,
William Barnett.

[illegible]
